

**We at Go Tokyo express our heartfelt sympathy for the people afflicted by the 2016 Kumamoto Earthquake.**

The prefectures of Kumamoto and Oita are working to reconstruct tourism that has dwindled in the wake of the recent earthquakes.

We encourage you to travel to Kumamoto, Oita, and the other prefectures in Kyushu, to see the stunning views, and to taste the local flavors.

Your support will help greatly in rebuilding the region affected heavily by the earthquake.

**Travel to Kumamoto and Oita, and show your support for reconstruction efforts!**

Passage is still restricted on some roads in Kumamoto. Check the status of transportation services before planning your trip.

For details, please see the Kumamoto Tourism Site.

Although seismic activity has declined significantly, tremors believed to be aftershocks are still ongoing.

For details, please see the Japan National Tourism Organization website.
