This is a special exhibition on the moment of the birth of the genius, the multitalented, the unbelievably vitalistic Ryotsu Kankichi! Explore the source of my ideas and my countless achievements on display and sear it into your memory.

In hopes of prosperity for the museum, I have even revived Ryotsu-Daimyojin Shrine! Leave any wish to me. Amen!! Namu Amida Butsu!!

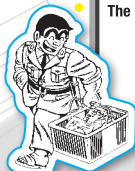

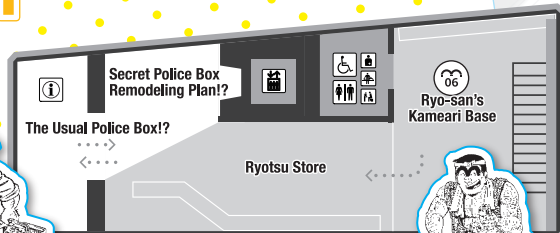

3F Kochikame Playground

This floor overflows with famous scenes carefully selected from the vast works of Kochikame. It's a hands-on Kochikame world that I've crafted, and I put my tricks everywhere! From the genius inventions to my unique mates and my amazing abilities! Enjoy the wacky world of Kochikame.

1F Welcome to Kameari !

Let me introduce you to my beloved town, Kameari. Kameari is a warm downtown area where, no matter what I do, they laugh and forgive me in the end. As you hit the town, you might stumble upon scenes from the manga!

And the shop here is lined with popular items I've produced. They'll become premium items in a while, so don't forget to buy them while you can!

4F The World of Kochikame Works

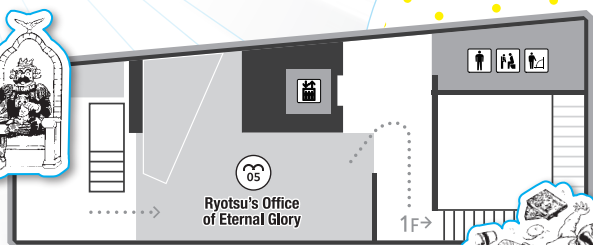

Note: The artworks here are reproductions of the originals.

Kochikame began its serialization in 1976. A collection of original illustrations from throughout its long history have been carefully selected and are on display in the special gallery. I encapsulated themes that convey the charm of the works and me: the story, my talents, the unique characters, the brushwork... Take a deep dive into the world of Kochikame and enjoy!

Oops!? Did the picture just move... ?

2F A Floor for Me

This floor is made by me, for me. So much is on special display here, from my famously messy room to the museum's most lavish director's office, along with Akimoto's colored paper collection! (But shh, don't tell anybody that I secretly borrowed them from Akimoto's workplace!)

And beware: Never open suspicious doors. You'll end up waking up that guy who only gets up once every four years...
