OTEMACHI DISTRICT

MARUNOUCHI

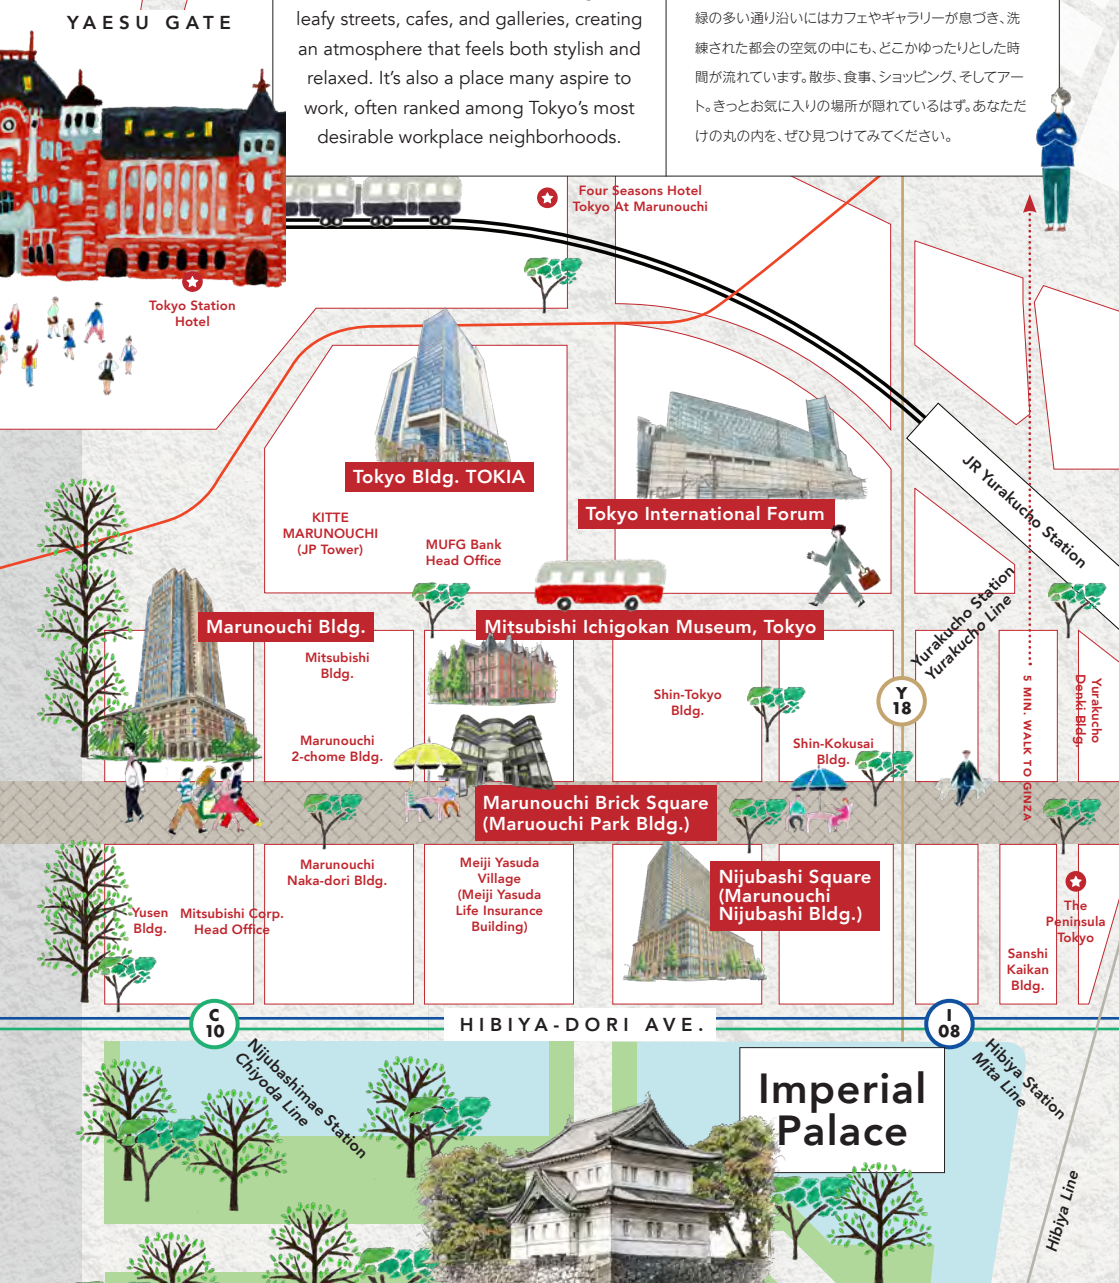

BUSINESS, CULTURE, AND CITY LIFE

Set between Tokyo Station and the Imperial Palace, Marunouchi is one of Tokyo's most iconic business districts. Polished office towers stand alongside leafy streets, cafes, and galleries, creating an atmosphere that feels both stylish and relaxed. It's also a place many aspire to work, often ranked among Tokyo's most desirable workplace neighborhoods.

東京駅と皇居のあいだに広がる丸の内。

日本有数のビジネス街として知られながら、「働きたい街」としても多くの人に支持されるこの街には、もうひとつの顔があります。

緑の多い通り沿いにはカフェやギャラリーが息づき、洗練された都会の空気の中にも、どこかゆったりとした時間が流れています。散歩、食事、ショッピング、そしてアート。きっとお気に入りの場所が隠れているはず。あなただけの丸の内を、ぜひ見つけてみてください。

HISTORY

Marunouchi, meaning “inside the circle,” refers to land once enclosed by the outer moat of Edo Castle. During the Edo period, it was lined with the quarters of daimyo lords. After the 1868 Meiji Restoration, these estates vanished, leaving a stretch of open land. In 1890, Yanosuke Iwasaki, the second presi-

dent of Mitsubishi, bought the land hoping to create a business district to rival those in London and New York. Western-style red-brick offices were soon built, earning the area the nickname “Iccho London” (The London Block). Over time, this vision developed into the Marunouchi of today.

THE BIRTH OF “ICCHO LONDON”

三菱一号館竣工：
ロンドンが東京にやってきた

The completion of the Mitsubishi Ichigokan in 1894 marked the start of Marunouchi's modernization. Adjacent to the Imperial Palace, Western-style office buildings formed the streetscape known as “Iccho London” (The London Block), laying the groundwork for the district's architecture.

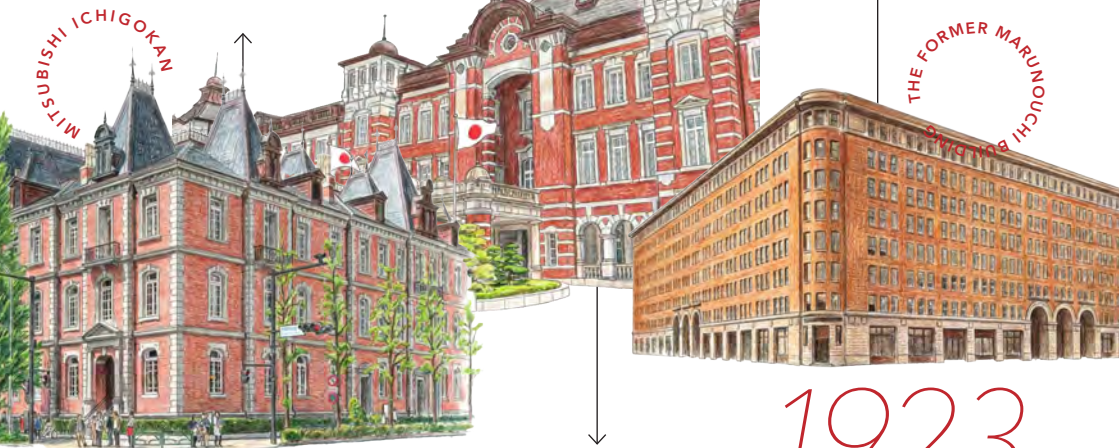

TOKYO STATION

丸の内ビルディング開業：

The Marunouchi Bldg. signaled a new era of modern urban efficiency. Shops and restaurants inside introduced Japan's first office-integrated retail spaces, and the surrounding American-style streets soon became popularly known as “Iccho New York” (The New York Block).

TOKYO STATION OPENS

東京駅開業：東京の玄関口が誕生

The opening of Tokyo Station established Marunouchi as Japan's main gateway, linking the capital to the national rail network. The lavish red-brick station faced the Imperial Palace, with Gyoko-dori Avenue forming a ceremonial axis connecting the station and the palace.

MARUNOUCHI'S URBAN RENAISSANCE

丸の内、新たな街へ

The 2002 reconstruction of the Marunouchi Bldg. turned the district into a lively place with offices, dining, and cultural spaces. The Mitsubishi Ichigokan Museum, Tokyo, opened in 2009, further enriched the area's cultural appeal.
