Have you ever had anything like this?

It's too far to walk from the station to my destination

Bicycle parking fees and maintenance fees are expensive

I'd like to try something good for the Earth

As bicycle parking lots are unavailable as they are full

Oh, no! I missed the last train/ the last bus!

I need to wait for a long time for transfer...

Electric power-assisted bicycle is too expensive for me to buy

There's terrible traffic congestion! It looks like I'm late!

Isn't there any shortcut to my destination?

Precious opportunity for sightseeing! I'd like to visit as many sightseeing spots as possible efficiently

Recently, I don't get enough exercise...

All these problems can be solved by bicycle sharing

What bicycle sharing is

The service by which you can freely hire and return bicycles. You can return the bicycle to a different cycle port (bicycle parking facility to hire out and return bicycles) from the one where you hire it.

Let me know!

Even better things about bicycle sharing

- Available anytime 24 hours
- Available for returning at any port
- Available for insurance to cover emergencies
- Electric power-assisted bicycle is easy to ride.
- Possible to select "Share Cycle" by map/route search

You can use it easily by 3 STEPS!

Let's start

STEP 1 Download the app on your smartphone and make the member registration
*You also need to register payment method!

STEP 2 Search the port nearby by using app

STEP 3 Let's ride a bicycle
Available for unlock by your smartphone or IC card

Ride a bicycle safely and comfortably by observing rules and good manners
Let's try bicycle sharing!

Five rules for safe cycling

- 1 Bicycles should be ridden on the left side of the road. In some places, bicycles can be ridden on sidewalks. In those cases, pedestrians have the right of way.
- 2 At an intersection, observe traffic lights and stop once. Check both sides before proceeding.
- 3 Turn on the lights at night.
- 4 Don't ride a bicycle after drinking.
- 5 Wear a helmet. *From April 2023, cyclists should make reasonable efforts to wear helmet.

Download apps from here.
